

What was I before I was popcorn?
I was corn.

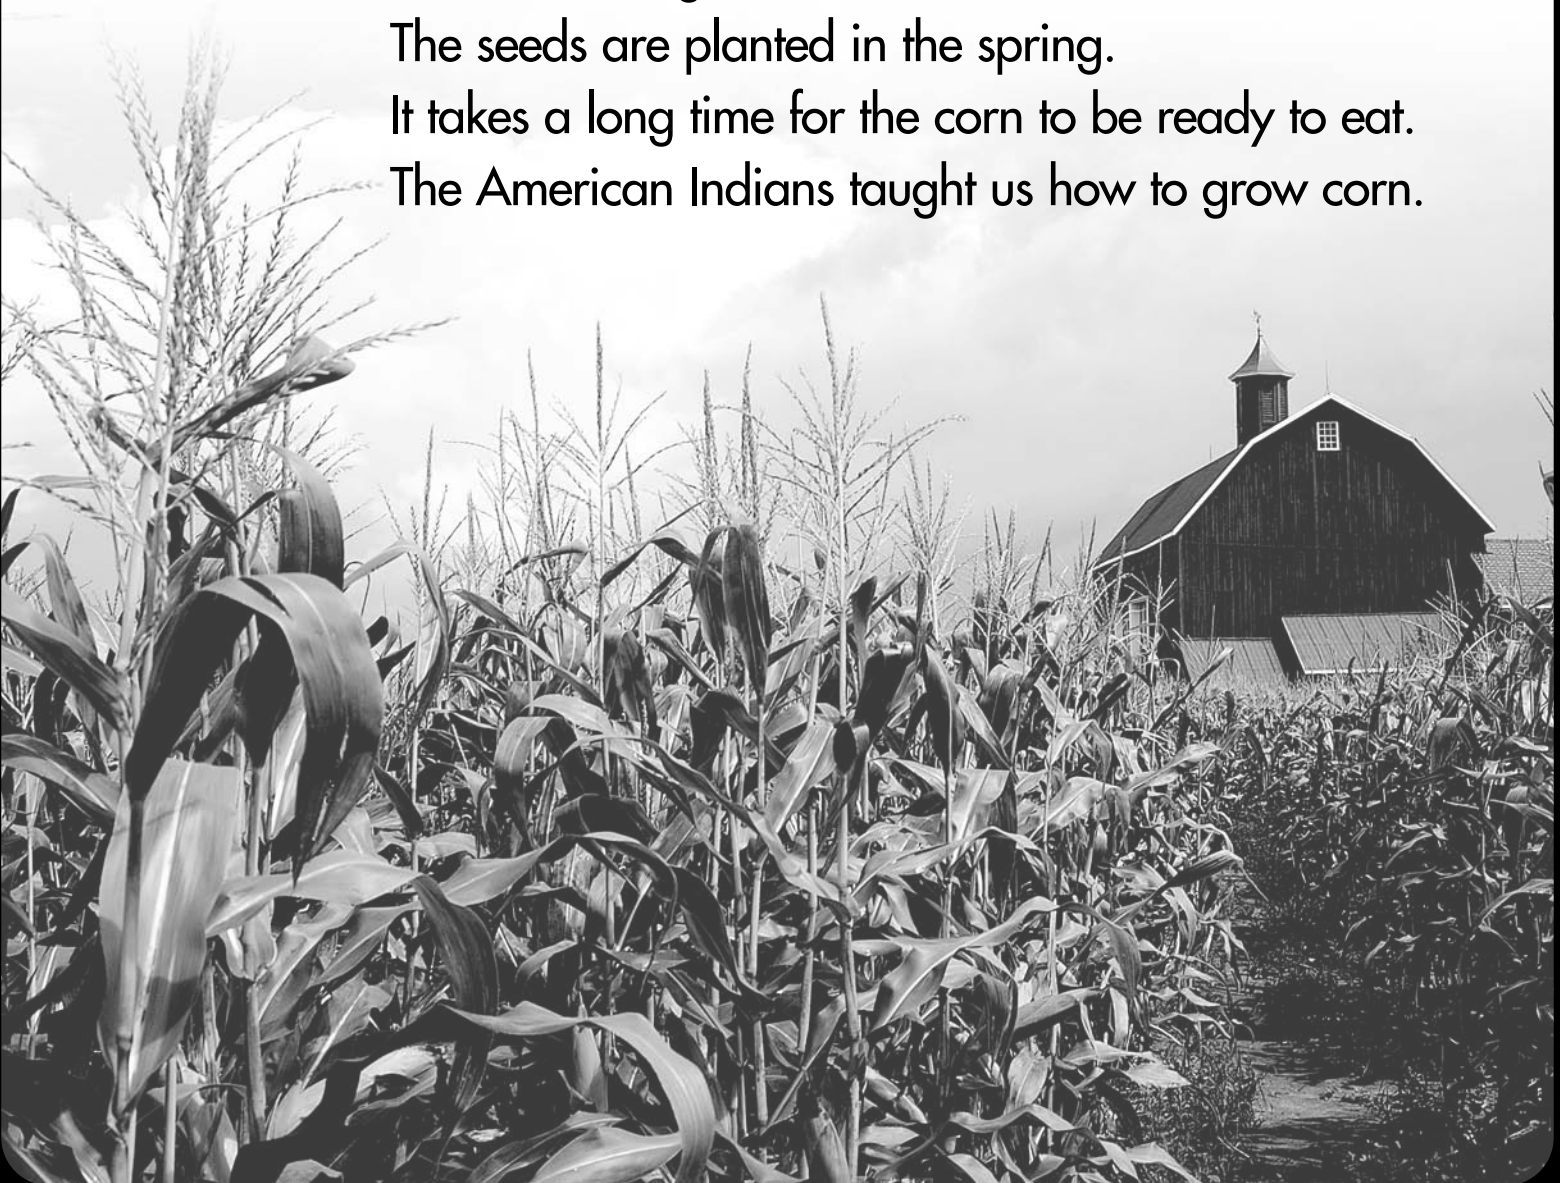

How do I grow?

In Kansas we grow corn.

The seeds are planted in the spring.

It takes a long time for the corn to be ready to eat.

The American Indians taught us how to grow corn.

What part do you eat?

When corn is grown it is covered in kernels.
The kernels are what we eat.

What foods do I make?

Corn feeds both people and animals.
We eat sweet corn and popcorn.
Corn can be used to make candy sweet.
The kernels can be ground into flour to make bread.
